

# The Shamanic Astrology Medicine Wheel Mandala

This mandala shows the four Angles of the chart, the Goddess (**Venus**) and the God (**Mars**), the Lineage (**Moon** position), and the Fuel we burn to get to our life purpose (**Sun** Sign). The specific role we play is the archetype of the God (**Mars**) or the Goddess (**Venus**) that we intend to experience on our life journey. **Mercury** describes our intended style of perception and cognition and communication. **Jupiter** describes the activities that will take us to our life purpose the quickest. Our **Ascendant** describes our leading edge for growth in this lifetime around our overall personal identity, what we came here to master...the current primary purpose and intent for our life. **The Descendant** describes what we are learning about in relationship to others and the sacred marriage. **The relationship axis** includes the Ascendant and Descendant and describes our current life intent for partnership and relationship. The **Midheaven** describes the intent for where we make our creative contribution in the world. The **IC** describes how we intend to experience our interior and home life. **The foundational axis** is how we share our energy personally and publically.
